Description
JETCOAT HEAVY DUTY TROWEL GRADE CRACK FILLER is a blend of asphalt and fibers for heavy duty repairs. This should be used to build up depressions, fill expansion joints and wide cracks or any job requiring a trowel grade crack filler. Coverage will vary, depending on width and depth of area.

Uses
- Filling Cracks & Ruts in Asphalt Pavement
- DO NOT USE on concrete or masonry surfaces.
- DO NOT apply to cracks/holes containing water.

Surface Preparation
Surface should be dry, clean of dirt and loose of foreign material.

Application
For best results, depressions should be built up in layers of 1/2 inch maximum. Material can be spread using trowel or squeegee. Allow to cure at least 24 hours prior to sealing or other use.

Drying Time
Drying time is dependent upon depth of application.

Clean Up
- While wet, use soap and water.
- When dry, kerosene or mineral spirits.

Weather Conditions
- Apply when temperatures are expected to be above 50 ºF for at least 48 hours. Do not apply when rain is imminent within 48 hours.

Coverage (Approximate)
- Coverage will vary, depending on width and depth of area.

Precautions
- Do Not Thin
- Do Not Store Container At Temperatures Below 40° F
- Do Not Freeze
- Do Not Allow Traffic Until Fully Cured

Safety And Environmental Precautions
- Refer To Material Safety Data Sheet Before Using
- For Exterior Application Only
- Close Container When Not In Use
- Environmental Information Is On The Material Safety Data Sheet
- Do Not Reuse Empty Container
- Volatile Organic Content (VOC) Is 10 Gm/Liter Max
- KEEP OUT OF REACH OF CHILDREN

This product does not contain any California Proposition 65 Chemicals.
