## Description
An advanced water-based acrylic clear sealer that provides a high gloss protective and durable finish to paving stone and exposed aggregate surfaces.

## Uses
- Paving Stone, Decorative Stone, and Exposed Aggregate Concrete

## Surface Preparation
- Clean Surface - Sweep all dirt and loose debris from surface. Remove all oil, grease and foreign materials. Surface must be completely dry before applying High Gloss Sealer.

## Application
Stir pail thoroughly. Apply thin even coats of sealer with a roller. Additional coats may be applied to achieve desired level of gloss and finish. Allow material to dry thoroughly between coats.

## Drying Time
Allow 2-3 hours to dry, depending on weather conditions.

## Clean Up
- Wash tools with water before material dries.

## Weather Conditions
- Application temperature must be a minimum of 60 ºF and rising. Do not apply when temperature is expected to drop below 60 ºF within a 24-hour period.
- In areas where dew or fog accumulates in the early evening, it is best to coat in the morning. Stop coating by early afternoon (3:00 pm) to prevent wash off, which will occur if dew, fog, or rain arrives before coating dries.
- Do not apply if rain is imminent or forecast within 24 hours of application.

## Coverage (Approximate)
- 130 to 170 square feet per gallon per coat. A 4.75 gallon pail will cover approximately 600-800 square feet.

## Precautions
- Do Not Freeze
- Do Not Store At Temperatures Below 50 ºF

## Safety And Environmental Precautions
- Refer To Material Safety Data Sheet Before Using
- For Exterior Application Only
- Close Container When Not In Use
- Environmental Information Is On The Material Safety Data Sheet
- Do Not Reuse Empty Container
- Volatile Organic Content (VOC) Is 150 gm/liter max
- KEEP OUT OF REACH OF CHILDREN

This product does not contain any California Proposition 65 Chemicals.
